

### **Policy for Hire of Half Sand Arena**

This policy describes how the Sand Arena must be setup and used when only half is being hired by a user group. This is to ensure that the hirer's activities are conducted in a safe manner and do not impinge upon other general member usage of the Sand Arena.

- The area being hired must be located on the southern, or Corrys Rd end of the Arena;
- Bollards or witches' hats must be setup by the hirer to delineate the half of the arena being used;
- A maximum of half of the Arena may be sectioned off (halfway marker is indicated on the arena);
- If the arena grader is used, it must be moved to the outside of the Sand Arena (i.e. not left in the area being used by general members);
- Activity participants are to remain clear of the arena available to general member usage.
